

Acme Corp Company Report

This is a sample document used to test the PDF RAG + Agent backend.
Acme Corp is a fictional company that manufactures gadgets.
The company was founded in 2010 and is headquartered in Springfield.

Financial Summary

In the most recent fiscal year, the company's revenue increased by eighteen percent compared to the previous year, driven mainly by strong sales of the new GadgetPro line of products.
Total revenue for the year was 42 million dollars.

Product Overview

Acme Corp's main product line, GadgetPro, includes three models: GadgetPro Lite, GadgetPro Standard, and GadgetPro Max. All models are covered by a two-year warranty.
